

Here's how the OES Summer Math Program works:

1. Go to the school website <http://orem.alpinedistrict.org/> and click on "PTA". This will take you to the page created by Cathy Ambrose, PTA webmaster, where she has posted all the Math Packets, as well as the OES Summer Math Progress sheet, the Teacher Recommendations by Grade Level, and instructions as .pdf files. Cathy has also posted several links to other math sites that may interest you.
2. If you do not already have one, print out an OES Summer Math Progress Sheet to keep track of your work. We are challenging each student to do math exercises for 20 minutes for at least 20 days this summer. A parent or guardian must sign off each 20-minute square.
3. Refer to the Teacher Recommendations by Grade Level to find out approximately which Math Packets your child is ready for. We encourage you to focus on the basic math facts appropriate for your child's grade, even if you repeat some exercises.
4. Print off the appropriate Math Packets. We recommend that you have your child sit down and do math exercises twice per week, thus spreading his math practice throughout the summer, but ANY way you do it is fine.
5. Bring your completed OES Summer Math Progress Sheet and turn it in to your child's core teacher when school begins. **Watch the school website for a VERY cool reward for each student who completes "The 20/20 Challenge" this summer!**

If you do not have access to the internet, you may use other materials (see below), or you may consider using the internet access of a close friend or use internet services at the Orem Public Library or Fitness Center.

If you want to use some other math materials, you are welcome to do so. Summer Bridge books can be purchased at area education supply stores. You may want to use Investigations Math activities you have collected. Just keep track of your student's math time. Please do not count time spent studying other unrelated subjects.

If you have any concerns or questions, please call Youngshin Cobabe at 225-0341. Thank you for your support of your OES student.
